**Therapeutic Communities**

Effective November 1, 2022, the new rate for Therapeutic Communities is established with the highest intensity program set at 70% of the Arkansas State Hospital (ASH) inpatient rate, and the lowest intensity level of programming at 50% of the ASH inpatient rate. Because a rate comparison analysis of similar programs in other Region 6 states found no comparable programs, in-state facilities offering comparable levels of care were surveyed. Specifically, the rates for human development centers (HDCs) and the ASH were used for comparison because Therapeutic community provider actual costs for services were also considered in the rate setting process. A revised rate methodology was determined, focused on two levels of program intensity utilizing this method.

Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers.
