## PURPOSE OF THE ARTS LEARNING STANDARDS

---

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

## MISSION OF ARTS EDUCATION

---

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

## ARTS INTEGRATION

---

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

## ARTISTIC LITERACY

---

Artistic Literacy is the knowledge and understanding required to participate authentically in the arts. Authentic participation in the arts call for an understanding of the processes that lead to fluency in an art form. Fluency in the languages of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an art form. Student should also have a clear sense of embodying that form and be able to reflect, critique, and connect personal experience to the arts.

## OVERVIEW OF THE ARTS LEARNING STANDARDS

---

The primary purpose of the 2017 Mississippi College-and-Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for Grades Pre-Kindergarten-12<sup>th</sup> arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi.

This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

## BENEFITS OF THE ARTS IN EDUCATION

---

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist’s sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

## FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

## THE ARTS AS MEANS TO WELLBEING

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

## THE ARTS AS COMMUNITY ENGAGEMENT

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable, inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experiences and support the arts in their local, state, national, and global communities.

## UNDERSTANDING THE ARTS LEARNING STANDARDS

---

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the Arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College- and Career-Readiness Arts Learning Standards. Performance standards describe more specifically what students should know and be able to do in the arts and are expressed as measurable outcomes across the grades pre-kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts.

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

ENDURING UNDERSTANDING Theatre artists rely on intuition, curiosity, and critical inquiry.		ESSENTIAL QUESTION(S) What happens when theatre artists use their imaginations and/or learned theatre skills while engaging in creative exploration and inquiry?	

### Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8<sup>th</sup> grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**  
 Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.
- **HS - Accomplished**  
 Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.
- **HS - Advanced**  
 Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

---

**Anchor Standard**

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the arts and demonstrate the knowledge and understandings that the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an “a” or “b” listed below the Anchor Standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

---

**Process Component**

Each artistic process branches into Process Components. Process Components are the actions artists carry out as they complete each artistic process. Students’ ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

---

**Enduring Understandings**

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student’s ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

---

**Essential Questions**

Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

## INTRODUCTION TO THE ARTS LEARNING STANDARDS FOR THEATRE

---

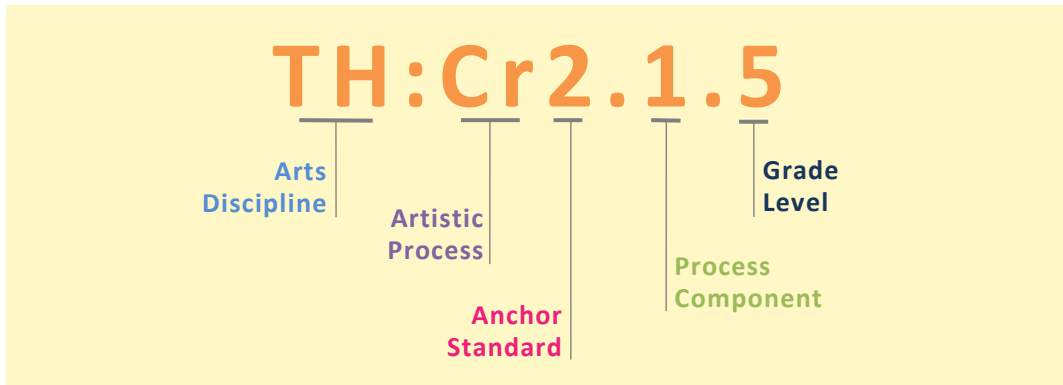

The Mississippi College- and Career-Readiness Arts Learning Standards for Theatre are designed to guide theatre educators as they help their students achieve independent theatre literacy. These grade-by-grade standards are an effort to articulate the most fundamental elements of theatre, in the hope that by doing so there will be recognition that every student can and should achieve a level of proficiency or beyond in this ancient and honorable craft.

The Mississippi College- and Career-Readiness Arts Learning Standards in Theatre are written with both drama processes and theatre products in mind. While many secondary theatre programs focus on performance and design in staged productions as evidence of a student’s understanding and achievement in the art, ongoing student engagement in theatre without an end product in mind has not always been defined and valued. These standards address those drama processes as well as traditional theatre. Drama processes encompass envisioned worlds and unscripted activities designed to engage students in a wide range of real and imagined issues; theatre includes the broader and more traditional conventions of the craft that have been developed over the centuries—scripted plays, acting, public performance, and stagecraft.

To address both process and product in theatre, the grade 3 through high school standards of Proficient, Advanced, and Accomplished often include the term “drama/theatre” to clarify the distinct but companion parts of theatre education. The Pre-Kindergarten through grade 2 standards, acknowledging the early childhood need for supervision and unfettered play, employ the phraseology “dramatic play” and/or “guided drama experience.”

## GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.

**Arts Discipline** The first two letters are codes for the arts discipline notation: **TH** = for Theatre

**Artistic Process** The next two letters after the colon are the artistic process:  
**Cr** = Creating      **Pr** = Performing      **Re** = Responding      **Cn** = Connecting

**Anchor Standard** The next number is the anchor standard, numbers 1 to 11.

**Process Component** The next number after the period is the process components which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

**Grade Level** The next number is the grade level. (Pre- Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced)

Below are a few examples of how to read the numbering system for Dance:

A process-centered, non-exhibitional approach to drama intended to benefit the performers themselves; story drama and process drama are two types of creative.

### **CREATIVE PROCESSES**

The application of production and technical elements (see the definitions) to a theatrical production.

### **DEvised DRAMA**

Creation of an original performance piece by an ensemble.

### **DIALOGUE**

A conversation between two or more characters.

### **DRAMATIC PLAY**

Make-believe where children naturally assign and accept roles, then act them out.

### **FOCUS**

Commitment by a participant (an actor, technician, director) to remain in the scope of the project or to stay within the world of the play.

### **GENRE**

Relating to a specific kind or type of drama and theatre such as a tragedy, drama, melodrama, comedy, or farce.

### **GESTURE**

An expressive and planned movement of the body or limbs.

### **GIVEN CIRCUMSTANCES**

The underlying actions and events that have happened before the play, story, or devised piece begins.

### **GUIDED DRAMA EXPERIENCE**

A leader guides participants during a process drama, story drama, or creative drama experience (see the definitions) through side-coaching, narration, and prompting; the action of the drama does not stop in order for the leader to support the students; facilitator may guide participants in or out of role.

### **IMPROVISE**

The spontaneous, intuitive, and immediate response of movement and speech; a distinction can be made between spontaneous improvisation, which is immediate and unrehearsed, and prepared improvisation, which is shaped and rehearsed.

### **IMAGINARY ELSEWHERE**

An imagined location which can be historical, fictional, or realistic.

### **IMAGINED WORLDS**

An imaginary world created collectively by participants in a drama experience.

### **INNER THOUGHTS**

The underlying and implied meaning or intentions in the character's dialogue or actions (also known as subtext).

### **MOTIVATION**

Reasons why a character behaves or reacts in a particular way in a scene or play.

### **NON-REPRESENTATIONAL MATERIALS**

Objects which can be transformed into specific props through the imagination.

### **OBJECTIVE**

A goal or particular need or want that a character has within a scene or play.

### **PLOT**

A narrative as revealed through the action and/or dialogue; traditionally, a plot has the elements of exposition, inciting incident, conflict, rising action, climax, and resolution or falling action.

### **PROCESS DRAMA**

A non-linear, episodic, process-centered, improvised form of drama in which teacher and students are in-role exploring and reflecting on an issue, story, theme, problem, or idea in a non-exhibitional format that is intended to benefit the performers themselves.

### **PRODUCTION ELEMENTS**

Technical elements selected for use in a specific production, including sets, sound, costumes, lights, music, props, and make-up, as well as elements specific to the production such as puppets, masks, special effects, or other story telling devices/concepts.

### **SCRIPTED DRAMA**

A piece of writing for the theatre that includes a description of the setting, a list of the characters, the dialogue, and the action of the characters.

### **SCRIPT ANALYSIS**

The study of a script to understand the underlying structure and themes of the play's story, and the motives and objectives of its characters.

### **STAGING**

Patterns of movement in a scene or play including, for example, stage crosses, entrances, and exits which help to convey meaning.

### **STORY DRAMA**

Episodic, process-centered, improvised form of drama that uses existing literature as a starting point for drama exploration, the drama explores moments (before, after, or within) that may not exist in the story and is presented in a non-exhibitional format that is intended to benefit the performers themselves.

### **STORY ELEMENTS**

Characters, setting, dialogue, and plot that create a story.

### **STYLE**

The use of a specific set of characteristic or distinctive techniques such as realism, expressionism, epic theatre, documentary theatre, or classical drama; style may also refer to the unique artistic choices of a particular playwright, director, or actor.

### **TACTIC**

The means by which a character seeks to achieve their objective, the selection of tactics are based on the obstacle presented; in acting and directing a tactic refers to a specific action verb.

### **TECHNICAL ELEMENTS**

The elements of spectacle such as sets, sound, costume, lights, music, props, and makeup used to create a unified and meaningful design for a theatrical production.

### **THEATRICAL CONVENTIONS**

Practices and/or devices that the audience and actors accept in the world of the play even when it is not realistic, such as a narrator, flashback, or an aside.

### **THEME**

The aspect of the human condition under investigation in the drama; it can be drawn from unifying topics or questions across content areas.

## **VISAL COMPOSITION**

The arrangement of actors and scenery on a stage for a theatrical production, sometimes known as mise en scène.

## PURPOSE OF THE ARTS LEARNING STANDARDS

---

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

## MISSION OF ARTS EDUCATION

---

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

## ARTS INTEGRATION

---

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

## ARTISTIC LITERACY

---

Artistic Literacy is the knowledge and understanding required to participate authentically in the arts. Authentic participation in the arts call for an understanding of the processes that lead to fluency in an art form. Fluency in the languages of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an art form. Student should also have a clear sense of embodying that form and be able to reflect, critique, and connect personal experience to the arts.

## OVERVIEW OF THE ARTS LEARNING STANDARDS

---

The primary purpose of the 2017 Mississippi College-and-Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for Grades Pre-Kindergarten-12<sup>th</sup> arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi.

This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

## BENEFITS OF THE ARTS IN EDUCATION

---

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist’s sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

## FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

## THE ARTS AS MEANS TO WELLBEING

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

## THE ARTS AS COMMUNITY ENGAGEMENT

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable, inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experiences and support the arts in their local, state, national, and global communities.

## UNDERSTANDING THE ARTS LEARNING STANDARDS

---

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the Arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College- and Career-Readiness Arts Learning Standards. Performance standards describe more specifically what students should know and be able to do in the arts and are expressed as measurable outcomes across the grades pre-kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts.

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

### Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8<sup>th</sup> grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**  
 Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.
- **HS - Accomplished**  
 Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.
- **HS - Advanced**  
 Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

---

**Anchor Standard**

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the arts and demonstrate the knowledge and understandings that the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an “a” or “b” listed below the Anchor Standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

---

**Process Component**

Each artistic process branches into Process Components. Process Components are the actions artists carry out as they complete each artistic process. Students’ ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

---

**Enduring Understandings**

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student’s ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

---

**Essential Questions**

Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

## INTRODUCTION TO THE ARTS LEARNING STANDARDS FOR THEATRE

---

The Mississippi College- and Career-Readiness Arts Learning Standards for Theatre are designed to guide theatre educators as they help their students achieve independent theatre literacy. These grade-by-grade standards are an effort to articulate the most fundamental elements of theatre, in the hope that by doing so there will be recognition that every student can and should achieve a level of proficiency or beyond in this ancient and honorable craft.

The Mississippi College- and Career-Readiness Arts Learning Standards in Theatre are written with both drama processes and theatre products in mind. While many secondary theatre programs focus on performance and design in staged productions as evidence of a student’s understanding and achievement in the art, ongoing student engagement in theatre without an end product in mind has not always been defined and valued. These standards address those drama processes as well as traditional theatre. Drama processes encompass envisioned worlds and unscripted activities designed to engage students in a wide range of real and imagined issues; theatre includes the broader and more traditional conventions of the craft that have been developed over the centuries—scripted plays, acting, public performance, and stagecraft.

To address both process and product in theatre, the grade 3 through high school standards of Proficient, Advanced, and Accomplished often include the term “drama/theatre” to clarify the distinct but companion parts of theatre education. The Pre-Kindergarten through grade 2 standards, acknowledging the early childhood need for supervision and unfettered play, employ the phraseology “dramatic play” and/or “guided drama experience.”

## GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.

**Arts Discipline** The first two letters are codes for the arts discipline notation: **TH** = for Theatre

**Artistic Process** The next two letters after the colon are the artistic process:  
**Cr** = Creating      **Pr** = Performing      **Re** = Responding      **Cn** = Connecting

**Anchor Standard** The next number is the anchor standard, numbers 1 to 11.

**Process Component** The next number after the period is the process components which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

**Grade Level** The next number is the grade level. (Pre- Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced)

Below are a few examples of how to read the numbering system for Dance:
