Research and Curriculum Unit
Mississippi State University
Mississippi State, MS 39762

The Research and Curriculum Unit (RCU) located in Starkville, MS, as part of Mississippi State University, was established to foster educational enhancements and innovations. In keeping with the land grant mission of Mississippi State University, the RCU is dedicated to improving the quality of life for Mississippians. The RCU enhances intellectual and professional development of Mississippi students and educators while applying knowledge and educational research to the lives of the people of the state. The RCU works within the contexts of curriculum development and revision, research, assessment, professional development, and industrial training.

Acknowledgments

The early childhood education (ECE) curriculum was presented to the Mississippi Board of Education on January 20, 2022. The following persons were serving on the state board at the time:

Dr. Carey M. Wright, state superintendent of education
Ms. Rosemary G. Aultman, Chair
Mr. Glen East, Vice-Chair
Dr. Wendi Barrett
Dr. Angela Bass
Dr. Karen J. Elam
Mr. Bill Jacobs
Dr. Ronnie McGehee
Mr. Matt Miller
Ms. Mary Werner
Ms. Amy Zhang, student representative
Ms. Micah Hill, student representative

The following Mississippi Department of Education (MDE) and RCU managers and specialists assisted in the development of the ECE curriculum:

Wendy Clemons, the executive director of the MDE Office of Secondary Education and Professional Development, supported the RCU and teachers throughout the development of the framework and supporting materials.
Dr. Aimee Brown, the state director of the MDE Office of Career and Technical Education (CTE), supported the RCU and teachers throughout the development of the framework and supporting materials.
Melissa Luckett, an instructional design specialist with the RCU, researched and authored this framework. helpdesk@rcu.msstate.edu

Special thanks are extended to the educators who contributed teaching and assessment materials that are included in the framework and supporting materials:

Tibby Johnson, Marion County Career and Technical Center, Columbia
Alnita McDonald, Covington County Career and Technical Complex, Collins
Jill Powe, Philadelphia Neshoba County Career Technical Center, Philadelphia
Natasha Richey, Tupelo High School, Tupelo
Bridget Robinson, Pontotoc Ridge Career and Technical Center, Pontotoc
Stacy Travis, Ocean Springs High School, Ocean Springs

Also, appreciation is expressed to the following professionals who provided guidance and insight throughout the development process:

Susan Shedd, the ECE program supervisor for the MDE Office of CTE
Dr. Micca Knox, the executive director of the Early Childhood Academy
April May, the executive director of Mississippi Building Blocks
Betsey Smith, the director of the RCU
Sam Watts, the curriculum manager for the RCU

Standards

Standards and alignment crosswalks are referenced in the appendices. Depending on the curriculum, these crosswalks should identify alignment to the standards mentioned below, as well as possible related academic topics as required in the Subject Area Testing Program in Algebra I, Biology I, English II, and U.S. History from 1877, which could be integrated into the content of the units. Mississippi's CTE ECE curriculum is aligned to the following standards:

National Association for the Education of Young Children (NAEYC)

The National Association for the Education of Young Children (NAEYC) is the world's largest organization working on behalf of young children. NAEYC believes all young children thrive and learn in a society dedicated to ensuring they reach their full potential. NAEYC promotes high-quality early learning for all children, birth through age 8, by connecting practice, policy, and research. NAEYC is dedicated to improving the well-being of all young children, with particular focus on the quality of educational and developmental services for all children from birth through age 8. NAEYC is committed to becoming an increasingly high performing and inclusive organization. Since 1985, NAEYC has offered a national, voluntary accreditation system to set professional standards for early childhood education programs and to help families identify high-quality programs. Today, NAEYC accreditation represents the mark of quality in early childhood education. Over 6,500 child-care programs, preschools, early learning centers, and other center or school-based early childhood education programs are currently NAEYC-accredited. These programs provide high-quality care and education to nearly one million young children in the United States, its territories, and programs affiliated with the United States Department of Defense.

naeyc.org

Child Development Associate (CDA) credential

The Child Development Associate credential (CDA)™ is the unique credentialing process, administered by the Council for Professional Recognition, which results in the award of the CDA Credential. The program uses a specific set of time-tested, research-based tools that follow the CDA Competency Standards to determine early childhood teacher competency, based on multiple sources of evidence. The CDA Competency Standards are the core of the CDA program. Candidates seeking to earn the CDA Credential are assessed based upon the CDA Competency Standards.

cdacouncil.org

Framework for 21st Century Learning

In defining 21st-century learning, the Partnership for 21st Century Skills has embraced key themes and skill areas that represent the essential knowledge for the 21st century: global awareness; financial, economic, business, and entrepreneurial literacy; civic literacy; health literacy; environmental literacy; learning and innovation skills; information, media, and technology skills; and life and career skills. 21 *Framework Definitions* (2019).

battelleforkids.org/networks/p21/frameworks-resources

Preface

Secondary CTE programs in Mississippi face many challenges resulting from sweeping educational reforms at the national and state levels. Schools and teachers are increasingly being held accountable for providing applied learning activities to every student in the classroom. This accountability is measured through increased requirements for mastery and attainment of competency as documented through both formative and summative assessments. This document provides information, tools, and solutions that will aid students, teachers, and schools in creating and implementing applied, interactive, and innovative lessons. Through best practices, alignment with national standards and certifications, community partnerships, and a hands-on, student-centered concept, educators will be able to truly engage students in meaningful and collaborative learning opportunities.

The courses in this document reflect the statutory requirements as found in Section 37-3-49, *Mississippi Code of 1972*, as amended (Section 37-3-46). In addition, this curriculum reflects guidelines imposed by federal and state mandates (Laws, 1988, Ch. 487, §14; Laws, 1991, Ch. 423, §1; Laws, 1992, Ch. 519, §4 eff. from and after July 1, 1992; Strengthening Career and Technical Education for the 21st Century Act, 2019 [Perkins V]; and Every Student Succeeds Act, 2015).

Mississippi Teacher Professional Resources

The following are resources for Mississippi teachers:

Curriculum, Assessment, Professional Learning

Program resources can be found at the RCU's website, rcu.msstate.edu.

Learning Management System: An Online Resource

Learning management system information can be found at the RCU's website under Professional Learning.

Should you need additional instructions, call the RCU at 662.325.2510.

Executive Summary

Pathway Description

Early childhood education is a pathway in the human science career cluster. It is a two-year high school program designed to include classroom and hands-on experiences to prepare students for employment or continuing education in the early childhood education field. In the course of study, emphasis is placed on students' personal and professional preparation for careers or education in the field, history and trends of early childhood education, children's health and safety, child development, and child guidance and observation. Emphasis is also placed on career and professional development, characteristics of high-quality early childhood centers, management and administration in quality childcare programs, and the learning environment. Instructional strategies and activities implemented through the course of study are aligned to the NAEYC and CDA standards and assist students in meeting requirements for the CDA credential.

College, Career, and Certifications

Industry standards in the early childhood education curriculum are based on the NAEYC and CDA standards. NAEYC has set forth early childhood program standards, which are seamlessly integrated throughout the early childhood education curriculum. The NAEYC standards are nationally recognized and embraced by all stakeholders in the early childhood community. NAEYC, which is the largest organization in the early childhood field, also offers a prestigious certification for child-care centers and associate degree programs.

The CDA standards are also integrated into the curriculum. The CDA credential is a national credential that is awarded to quality caregivers who work with children from birth to age five years. In order to attain the CDA credential, an applicant must complete 480 hours of field experience, complete 120 hours of education coursework, and have a high school diploma or be enrolled in a high school career and technical program. After graduating from high school and gaining 120 hours of formal training, students have completed step one of the CDA credentialing process and may apply for the certification. CDA's standards are widely recognized by secondary and postsecondary early childhood technical programs, child-care centers, and the United States Department of Education. The CDA standards provide a mechanism for high school graduates to enter the workforce, with or without postsecondary training, to become highly qualified in the field of early childhood education and services.

The curriculum also combines effective classroom instruction with hands-on training to prepare students completing the early childhood education program and graduating from high school to enter the workforce or continue education at a postsecondary institution. Students who choose to enter the workforce after graduation from high school could gain employment as child-care providers or as teacher assistants. Students who choose to attend a postsecondary institution may enter a child-care technical program. After completion of the postsecondary program, students may enter the workforce as child-care providers, teacher assistants, or preschool teachers; however, students may also choose to further their education at an institution of higher learning. These students can major in early childhood education, elementary education, or child development.

Grade Level and Class Size Recommendations

It is recommended that students enter this program as a ninth or 10th grader. Exceptions to this are a district-level decision based on class size, enrollment numbers, and student maturity. A maximum of 20 students is recommended for this course.

Student Prerequisites

In order for students to experience success in the program, the following student prerequisites are suggested:

1. C or higher in English (the previous year)
 2. C or higher in math (last course taken or the instructor can specify the level of math instruction needed)
 3. Instructor approval and TABE reading score (eighth grade or higher)
- or**
1. TABE reading score (eighth grade or higher)
 2. Instructor approval
- or**
1. Instructor approval

Assessment

The latest assessment blueprint for the curriculum can be found at rcu.msstate.edu/curriculum/curriculumdownload.

Applied Academic Credit

The latest academic credit information can be found at mdek12.org/ese/approved-course-for-the-secondary-schools.

Teacher Licensure

The latest teacher licensure information can be found at mdek12.org/oel/apply-for-an-educator-license.

Professional Learning

If you have specific questions about the content of any of training sessions provided, please contact the RCU at 662.325.2510.

Course Outlines

Option 1—Four 1-Carnegie-Unit Courses

This curriculum consists of four 1-credit courses, which should be completed in the following sequence:

1. **Fundamentals of Early Childhood Education—Course Code: 996202**
2. **Child Development—Course Code: 996203**
3. **The Learning Environment—Course Code: 996204**
4. **Management of a Quality Child Care Program—Course Code: 996205**

Course Description: Fundamentals of Early Childhood Education

This course is an introduction to personal and professional preparation for a career in the field of early childhood education. Students are introduced to guidelines and regulations governing childcare facilities. Students will learn the components of child development for infant to three-year-old children. Participation in a student organization, field experiences, internships, and job-shadowing will be introduced in this course. Students will begin to develop skills and maintain documentation toward meeting requirements for the CDA credential.

Course Description: Child Development

The course continues with child development, but focusing on children four years of age and those with special needs. Other topics covered include using developmentally appropriate knowledge to design policies that promote the health and safety of children in a childcare facility. Students will continue exposure to field experiences, such as internships and job-shadowing, as well as develop skills and maintain documentation toward meeting requirements for the CDA credential.

Course Description: The Learning Environment

This course continues to emphasize knowledge in the areas of educational, career, and professional plans for the field of early childhood. The major topic of this course includes curriculum planning and scheduling in an early childhood program. Students will develop age-appropriate activities and create lesson plans that encompass all areas of child development. Methods of child guidance techniques are also introduced in this course. Students will participate in field experiences, internships, and job-shadowing on a more in-depth level. Students will continue to develop skills and maintain documentation toward meeting requirements for the CDA credential.

Course Description: Management of a Quality Child Care Program

This course includes methods and strategies that enhance the quality of a childcare program as it relates to parental and community involvement. Cultural diversity will be a major topic for this course. Students will develop skills to promote cultural awareness and inclusiveness in a program. Participation in field experience, internships, and job-shadowing will continue on the most in-depth level. Students will also continue to develop skills and documentation toward meeting requirements for the CDA credential.

Fundamentals of Early Childhood Education—Course Code: 996202

Unit	Unit Name	Hours
1	Program Orientation	40
2	Child Development: Infant to Three Years Old	100
Total		140

Child Development—Course Code: 996203

Unit	Unit Name	Hours
3	Child Development: Four Years Old and Special Needs Populations	90
4	Preparing a Healthy and Safe Environment	50
Total		140

The Learning Environment—Course Code: 996204

Unit	Unit Name	Hours
5	The Learning Environment	70
6	Curriculum Development	70
Total		140

Management of a Quality Child Care Program—Course Code: 996205

Unit	Unit Name	Hours
7	Family and Community Relationships	70
8	Career Development and Professionalism	70
Total		140

Option 2—Two 2-Carnegie-Unit Courses

This curriculum consists of two 2-credit courses, which should be completed in the following sequence:

1. **Early Childhood I—Course Code: 996200**
2. **Early Childhood II—Course Code: 996201**

Course Description: Early Childhood I

This year-long course begins with an introduction to personal and professional preparation for continued education, training, and careers in early childhood. Major topics of study in this course are stages of child development, ranging from birth through age five, and children’s health and safety. Students are introduced to guidelines and regulations governing childcare facilities. Other topics covered are related to the importance of observing and assessing children. Methods of child guidance techniques are also introduced in this course. Participation in a student organization is ongoing. Students will participate in field experiences, internships, and job-shadowing, as well as develop skills and maintain documentation toward meeting requirements for the CDA credential.

Course Description: Early Childhood II

This course focuses on curriculum planning and the development of age-appropriate activities and lesson plans that encompass all areas of child development. Other major topics covered in this course are methods of child guidance techniques and strategies to enhance the quality of a facility such as cultural diversity, parental, and community involvement. Students will continue to develop educational, career, and professional plans in the area of early childhood. Participation in a student organization is ongoing. Students will participate in field experiences, internships, and job-shadowing, as well as continue to develop skills and maintain documentation toward meeting requirements for the CDA credential.

Early Childhood I—Course Code: 996200

Unit	Unit Name	Hours
1	Program Orientation	40
2	Child Development: Infant to Three Years Old	100
3	Child Development: Four Year Olds and Special Needs Populations	90
4	Preparing a Healthy and Safe Environment	50
Total		280

Early Childhood II—Course Code: 996201

Unit	Unit Name	Hours
5	The Learning Environment	70
6	Curriculum Development	70
7	Family and Community Relationships	70
8	Career Development and Professionalism	70
Total		280

Career Pathway Outlook

Overview

Quality ECE programs benefit our future society and economy. Research shows that preschool education is a sound economic investment, due to the fact that every dollar invested in early education saves taxpayers costs in the future. It is an investment that pays great returns. The ECE curriculum prepares students for future success in the field of early childhood education by improving academic and technology skills, improving employability skills, and articulating courses to community colleges. The rigorous and relevant two-year program is based on state and national standards, CDA competency standards, NAEYC standards, and 21st-century workforce skills. The course is a two-year or four-year program offering four Carnegie units of credit.

The industry of ECE is preparing for changes due to high rates of teacher retirement, national and state initiatives, requirements, and increasing focus on the field of early childhood education. The course allows core academic subjects that are vital to students' success to be integrated into the curriculum.

Needs of the Future Workforce

Data for this synopsis were compiled from the Mississippi Department of Employment Security (2021). Employment opportunities for each of the occupations listed below are:

Table 1.1: Current and Projected Occupation Report

Description	Jobs, 2016	Projected Jobs, 2026	Change (Number)	Change (Percent)	Average Hourly Earning
Preschool Teachers, Except Special Education	2,340	2,470	130	5.6	\$14.86
Kindergarten Teachers, Except Special Education	1,120	1,210	90	8.0	N/A
Elementary School Teachers, Except Special Education	15,060	16,280	1,220	8.1	N/A
Child Care Workers	8,660	8,890	230	2.7	\$9.29
Teacher Assistants	11,490	12,420	930	8.1	N/A

Source: Mississippi Department of Employment Security; www.mdes.ms.gov (2021).

Perkins V Requirements and Academic Infusion

The ECE curriculum meets Perkins V requirements of introducing students to and preparing them for high-skill, high-wage occupations in the ECE fields. It also offers students a program of study, including secondary, postsecondary, and institutions of higher learning courses, that will further prepare them for ECE careers. Additionally, this curriculum is integrated with academic college- and career-readiness standards. Lastly, it focuses on ongoing and meaningful professional development for teachers as well as relationships with industry.

Transition to Postsecondary Education

The latest articulation information for secondary to postsecondary can be found at the Mississippi Community College Board (MCCB) website, mccb.edu.

Best Practices

Innovative Instructional Technologies

Classrooms should be equipped with tools that will teach today's digital learners through applicable and modern practices. The ECE educator's goal should be to include teaching strategies that incorporate current technology. To make use of the latest online communication tools—wikis, blogs, podcasts, and social media platforms, for example—the classroom teacher is encouraged to use a learning management system that introduces students to education in an online environment and places more of the responsibility of learning on the student.

Differentiated Instruction

Students learn in a variety of ways, and numerous factors—students' backgrounds, emotional health, and circumstances, for example—create unique learners. By providing various teaching and assessment strategies, students with various learning preferences can have more opportunity to succeed.

CTE Student Organizations

Teachers should investigate opportunities to sponsor a student organization. There are several here in Mississippi that will foster the types of learning expected from the ECE curriculum. FCCLA (Family, Career, and Community Leaders of America) and Skills USA are examples of student organizations for ECE. Student organizations provide participants and members with growth opportunities and competitive opportunities.

Cooperative Learning

Cooperative learning can help students understand topics when independent learning cannot. Therefore, you will see several opportunities in the ECE curriculum for group work. To function in today's workforce, students need to be able to work collaboratively with others and solve problems without excessive conflict. The ECE curriculum provides opportunities for students to work together and help each other complete complex tasks. There are many field experiences within the ECE curriculum that will allow and encourage collaboration with professionals currently in the field of ECE.

Work-Based Learning

Work-based learning is an extension of understanding competencies taught in the ECE classroom. The second year ECE program requires students to obtain a minimum of 100 clinical-type hours, which should include, but is not limited to, field trips, observations, job-shadowing, and preferably some sort of volunteer, internship, or apprenticeship experience. These real-world connections and applications provide a link to all types of students regarding knowledge, skills, and professional dispositions. Thus, supervised collaboration and immersion into the ECE world around the students are keys to students' success, knowledge, and skills development.

Using This Document

Competencies and Suggested Objectives

A competency represents a general concept or performance that students are expected to master as a requirement for satisfactorily completing a unit. Students will be expected to receive instruction on all competencies. The suggested objectives represent the enabling and supporting knowledge and performances that will indicate mastery of the competency at the course level.

Teacher Resources

Teacher resources for this curriculum may be found in multiple places. Many program areas have teacher resource documents that accompany the curriculum and can be downloaded from the same site as the curriculum. The teacher resource document contains references, lesson ideas, websites, teaching and assessment strategies, scenarios, skills to master, and other resources divided by unit. This document could be updated periodically by RCU staff. Please check the entire document, including the entries for each unit, regularly for new information. If you have something you would like to add or have a question about the document, call or email the RCU's instructional design specialist for your program. The teacher resource document can be downloaded at rcu.msstate.edu/curriculum/curriculumdownload.aspx. All teachers should request to be added to the Canvas Resource Guide for their course. This is where all resources will be housed in the future if they are not already. To be added to the guide, [send a Help Desk ticket to the RCU](#) by emailing helpdesk@rcu.msstate.edu.

Perkins V Quality Indicators and Enrichment Material

Some of the units may include an enrichment section at the end. If the ECE program is currently using the Mississippi Career Planning and Assessment System (MS-CPAS) as a measure of accountability, the enrichment section of material will not be tested. If this is the case, it is suggested to use the enrichment material when needed or desired by the teacher and if time allows in the class. This material will greatly enhance the learning experiences for students. If, however, the ECE program is using a national certification, work-based learning, or other measure of accountability that aligns with Perkins V as a quality indicator, this material could very well be tested on that quality indicator. It is the responsibility of the teacher to ensure all competencies for the selected quality indicator are covered throughout the year.

Unit 1: Program Orientation

Competencies and Suggested Objectives

1. Describe the expectations, procedures, and opportunities in the early childhood education (ECE) program. ^{DOK1}
 - a. Review the curriculum standards, competencies, and objectives.
 - b. Discuss school and classroom policies for emergency procedures and the proper use of lab equipment.
 - c. Identify leadership opportunities in student organizations, such as FCCLA, Skills USA, or Educators Rising.
 - d. Complete federally required safety test with 100% accuracy.
2. Explore the opportunities and trends in the field of ECE. ^{DOK2}
 - a. Research the education and training required in the various ECE careers.
 - b. Identify characteristics and responsibilities of individuals working in the field.
 - c. Describe the various types of early childcare programs and the historical changes that have affected the field of ECE.
 - d. Investigate ECE organizations and their role in the field including licensing, regulations, and accreditations.
 - American Montessori Association (AMA)
 - Family, Career and Community Leaders of America (FCCLA)
 - National Association of Child Care Professionals (NACCP)
 - National Association for the Education of Young Children (NAEYC)
 - National Association for Family Child Care (NAFCC)
 - National Child Care Association (NCCA)
 - National Head Start Association (NHSA)
 - Child Development Association (CDA)

Enrichment

1. Students should obtain a copy of the CDA National Credentialing Program and Competency Standards guidebook to review the High School Child Development Associate Credentialing process. See the ECE teacher resource guide for fundraising options to purchase the book (GoFundMe, etc.).
2. Prepare a professional portfolio to include their philosophy of early childhood education, résumé, and work samples that are created throughout the program.

Note: Safety is to be taught as an ongoing part of the program. Students are required to complete a written safety test with 100% accuracy before participating in clinicals. This test should be documented in each student's file.

Note: Time allotted for this unit will be distributed over the entire year.

Unit 2: Child Development: Infant to Three Years Old

Competencies and Suggested Objectives

1. Apply methods to observe and assess children's developmental and educational goals. ^{DOK2}
 - a. Identify the general purpose of assessments and factors that determine when they are conducted in a childcare setting.
 - b. Analyze factors involved in choosing assessments, including the advantages and disadvantages of each tool.
 - Checklist
 - Anecdotal records
 - Rating scales
 - Participation charts
 - Work samples/portfolios
 - Visual/technological
2. Analyze developmental stages and apply the appropriate strategies that promote growth in children from birth to two years of age. ^{DOK3}
 - a. Describe the characteristics associated with areas of development in children from birth to two years of age.
 - Physical
 - Cognitive
 - Social-emotional
 - b. Examine the behaviors and needs described by Erik Erikson's psychosocial theory that apply to the developmental stages for this group.
 - Stage I
 - Stage II
3. Analyze developmental stages and apply the appropriate strategies that promote growth in children from two to three years of age. ^{DOK3}
 - a. Describe the characteristics associated with areas of development in children from two to three years of age.
 - Physical
 - Cognitive
 - Social-emotional
 - b. Examine the stages of development for children in this age group according to theories and principles.
 - Piaget's theory of cognitive development
 - Erikson's psychosocial theory of human development

Unit 3: Child Development: Four Years Old and Special Needs Populations

Competencies and Suggested Objectives

1. Analyze developmental stages and apply the appropriate strategies that promote growth in children from four to five years of age. ^{DOK3}
 - a. Describe the characteristics associated with areas of development for children in this age group.
 - Physical
 - Cognitive
 - Social-emotional
 - b. Examine the stages of development for children in this age group according to theoretical principles.
 - Piaget’s theory of cognitive development
 - Erikson’s psychosocial theory of human development
 - Maslow’s hierarchy of needs
2. Develop strategies that support the inclusion and development of children with special needs into a program. ^{DOK3}
 - a. Examine the purpose and goals of laws regarding disabilities in childcare programs.
 - Individuals with Disabilities Education Act (IDEA)
 - Individualized Education Plan (IEP)
 - Individualized Family Service Plan (IFSP)
 - Americans with Disabilities Act (ADA)
 - b. Apply strategies to identify and accommodate the various types of special needs.
 - Hearing
 - Speech/language
 - Visual
 - Physical
 - Cognitive/learning
 - Gifted

Unit 4: Preparing a Healthy and Safe Environment

Competencies and Suggested Objectives

1. Demonstrate developmentally appropriate equipment selection and space organization skills to promote healthy learning environments. ^{DOK3}
 - a. Identify key elements and criteria involved in planning and preparing the environment.
 - Indoor environment
 - Indoor furniture and design
 - Activity areas
 - Outdoor environment
 - b. Plan activities and select equipment, materials, and toys that encourage the developmental skills of children, such as motor, problem solving, exploration, and communication.
 - Birth to two years of age
 - Two to three years of age
 - Three to four years of age
 - Special needs populations
2. Develop policies that must be implemented to protect the safety and health of children in a childcare facility. ^{DOK3}
 - a. Identify the necessary physical features to prevent or reduce injuries in a childcare facility.
 - Indoor and outdoor play areas
 - Furniture
 - Walls
 - Toys and equipment
 - b. Explain emergency and safety procedures that must be implemented to maintain a safe environment for children.
 - Child supervision
 - Transportation
 - Fire and weather
 - Choking and poisonings
 - c. Demonstrate procedures that minimize and prevent the spread of disease and infections.
 - Sanitizing and disinfecting
 - Hand washing
 - Diapering/toileting

<p>d. Identify concepts to design nutritious meals and snacks in a childcare program.</p> <ul style="list-style-type: none"> • Common nutritional problems/needs • Food groups and sources • Meal plans and preferences <p>e. Design a center’s health policy that protects and improves the health of children.</p> <ul style="list-style-type: none"> • Immunizations • Exclusion • Administering medications • Napping • Contacting parents • First aid • Wounds and burn treatment
<p>3. Explain the legal requirements childcare centers use to promote children’s safety. ^{DOK2}</p> <p>a. Explore a center’s responsibility for ensuring the safety and health of children.</p> <ul style="list-style-type: none"> • Types of liability • Health and safety forms • Privacy law <p>b. Recognize signs of neglect and abuse in children.</p> <ul style="list-style-type: none"> • Nonaccidental physical injury • Neglect • Emotional abuse • Sexual abuse <p>c. Demonstrate procedures that minimize and prevent the spread of disease and infections.</p> <ul style="list-style-type: none"> • Sanitizing and disinfecting • Hand washing • Diapering/toileting

<p>Enrichment</p>
<p>1. Pursue a certification in first aid and infant or child CPR.</p> <p>2. Research the MSDH guidelines for a safe physical area, proper sanitation/hygiene, disease control and prevention practices, and immunization requirements.</p>

Unit 5: Learning Environment

Competencies and Suggested Objectives

1. Create a healthy, supportive, and challenging learning environment based on developmental skills of children. ^{DOK3}
 - a. Identify reasons and guidelines for establishing classroom limits and enforcement techniques.
 - b. Describe appropriate limitations for general classroom areas and activities.
 - Cooking
 - Sensory play
 - Playground activity
 - Dramatic play
 - Small manipulative activities
 - c. Identify strategies that promote effective routines and activities for early childhood education programs.
 - Arrival routines
 - Meals/snacks
 - Nap times
 - Indoor and outdoor play
 - Toileting and hand washing
 - d. Demonstrate the use of developmentally appropriate transition techniques that promote positive outcomes in a childcare setting.
2. Develop guidance skills to support developmental and educational goals. ^{DOK2}
 - a. Differentiate the purpose of discipline, guidance, and in a childcare setting.
 - b. Describe principles of direct and indirect guidance.
 - c. Identify the purpose and goals of techniques designed to guide children's behavior.
 - Positive verbal environment
 - Positive reinforcement
 - Consequences
 - Warning
 - Time-out
 - I-messages
 - Praise
 - Prompting
 - Persuading
 - Redirecting
 - Modeling
 - Listening
 - Encouraging
 - Suggestions

Enrichment

1. Select a local childcare facility to compare and contrast classroom design and layout, including office, classrooms, restrooms, isolation room, rest areas, security, lighting, toys and equipment, flooring, and wall and window treatments.
2. Design a developmentally appropriate classroom with basic areas.

Unit 6: Curriculum Development

Competencies and Suggested Objectives

1. Demonstrate developmentally appropriate teaching methods and approaches to learning for early education. ^{DOK2}
 - a. Describe factors to consider, and the elements involved in the curriculum development process.
 - Program goals
 - Observations/assessments
 - Content vs. process-centered
 - Learning styles/interests
 - Themes
 - Resources
 - Activities
 - Technology
2. Demonstrate approaches to learning and teaching by incorporating developmentally appropriate themes. ^{DOK2}
 - a. Compile a list of developmentally appropriate themes for toddlers and preschool-age children.
 - b. Develop a web or flowchart illustrating a connection between activities and themed units of lessons.
 - c. Write a “block” format lesson plan based on a theme.
 - d. Create a “daily lesson plan” to include the following:
 - Goals
 - Motivation or introduction
 - Subject
 - Learning objectives
 - Procedures
 - Accommodations (developmental delays)
 - Materials
 - Closure/transition
 - Guided questions
 - Evaluation

3. Design a plan to guide learning experiences. ^{DOK3}
- a. In the plan, include the necessary elements for the following:
- Art
 - Language (storytelling, writing, play, or puppetry)
 - Math
 - Science
 - Social studies
 - Music or movement
 - Food experiences
 - Field trip experiences
 - Technology

Unit 7: Family and Community Relationships

Competencies and Suggested Objectives

1. Demonstrate cultural awareness and skills to build positive relationships with family and community members. ^{DOK2}
 - a. Identify the purpose and various methods for involving parents and families in the childcare program.
 - Parent-teacher conferences
 - Written communication
 - Home visits
 - Discussion groups
 - Volunteers
 - b. Identify strategies to promote cultural diversity and the dangers associated with certain concepts.
 - Multicultural books, toys, and materials
 - Celebrations, events, and holidays
 - Intergenerational concepts
 - Stereotypes
 - Nonsexist toys and materials
 - c. Identify strategies to promote cultural diversity and the dangers associated with certain concepts.
 - Cooking
 - Sensory play
 - Playground activity
 - Dramatic play
 - Small manipulative activities

Unit 8: Career Development and Professionalism

Competencies and Suggested Objectives

1. Demonstrate career readiness and work-based learning skills. ^{DOK3}
 - a. Research and compare available jobs in the ECE field based on key factors.
 - Minimum education
 - Certifications
 - Minimum experience
 - Job description/responsibilities
 - Salary
 - b. Demonstrate basic interviewing skills led by the instructor and/or advisory committee members.
 - Professional attire
 - Cover letter
 - Application and/or résumé
 - Letters of recommendations
 - Thank you/follow up letters
 - c. Review individual professional portfolios to ensure necessary documents are included and information is current.
 - Philosophy of education
 - Lesson plans
 - Food menus and schedules
 - Daily schedule of activities
 - Observation records

Enrichment

1. Obtain a copy of the Child Development Associate National Credentialing Program and CDA Competency Standards book to begin the preparation phase of the credentialing process.
2. Conduct mock interviews, in person or virtually (e.g., via Skype, Facetime, FlipGrid, etc.).

Student Competency Profile

Student's Name: _____

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Unit 1: Program Orientation and Introduction		
	1.	Describe the expectations, procedures, and opportunities in the early childhood education (ECE) program.
	2.	Explore the opportunities and trends in the field of ECE.
Unit 2: Child Development: Infant to Three Years Old		
	1.	Apply methods to observe and assess children's developmental and educational goals.
	2.	Analyze developmental stages and apply the appropriate strategies that promote growth in children from birth to two years of age.
	3.	Analyze developmental stages and apply the appropriate strategies that promote growth in children from two to three years of age.
Unit 3: Child Development: Four Years Old and Special Needs Populations		
	1.	Analyze developmental stages and apply the appropriate strategies that promote growth in children from four to five years of age.
	2.	Develop strategies that support the inclusion and development of children with special needs into a program.
Unit 4: Preparing a Healthy and Safe Environment		
	1.	Demonstrate developmentally appropriate equipment selection and space organization skills to promote healthy learning environments.
	2.	Develop policies that must be implemented to protect the safety and health of children in a childcare facility.
	3.	Explain the legal requirements childcare centers use to promote children's safety.
Unit 5: Learning Environment		
	1.	Create a healthy, supportive, and challenging learning environment based on developmental skills of children.
	2.	Develop guidance skills to support developmental and educational goals.

Unit 6: Curriculum Development		
	1.	Demonstrate developmentally appropriate teaching methods and approaches to learning for early education.
	2.	Demonstrate approaches to learning and teaching by incorporating developmentally appropriate themes.
	3.	Design a plan to guide learning experiences.
Unit 7: Family and Community Relationships		
	1.	Demonstrate cultural awareness and skills to build positive relationships with family and community members.
Unit 8: Career Development and Professionalism		
	1.	Demonstrate career readiness and work-based learning skills.
