

Figure: 30 TAC 106.224(4)

- E = maximum allowable hourly emission, lb/hr,
- L = limit value (see Table 262), milligrams per cubic meter,
- K = value from Table 224A (interpolate intermediate values), and
- D = distance to the nearest off-plant receptor from the closest affected emission point.

TABLE 224A

<u>D, Feet</u>	<u>K</u>
100	326
200	200
300	139
400	104
